## SANCTITY OF SILENCE ARE IRREGULARITIES.

No One Compelled to Be a Witness  
Against Himself.

SO RULES GROSSCUP.

A Constitutional Right Cannot Be  
Forfeited, Says the Jusist, and  
He Allows Mulligan and  
Donahue Bail.

Chicago, June 6.—Cornelius P. Shea, president of the International Brotherhood of Teamsters, and leader in the strike which has existed in Chicago for the last two months, was arrested and taken to jail Monday night. With him on the journey from the saloon in which he was arrested, to the office of the sheriff and then to the jail, was Hugh McGee, president of the Truck Drivers' union. Both were taken on indictments charging them with conspiracy to defraud the public by selling pirated goods. Shea was arrested last Saturday night. Shea was angry, and vigorously denounced the sheriff's action.

A notable decision affecting conspiracy proceedings was made Monday by Judge Peter S. Grosscup in the United States district court. He declared that the jailing of the labor leaders, Bernard Mulligan and John H. Donahue, for alleged contempt of court in refusing to answer questions possibly incriminating was an "extraordinary proceeding." Judge Grosscup's opinion, on account of its sweeping character and widespread applicability, attracted much attention. Mulligan and Donahue, who had been held in contempt of court by Judge Kohlsaat for refusing to answer questions before Master in Chancery Sherman, which the defendants were especially ordered by Judge Kohlsaat to answer, were released under \$300 bonds by Judge Grosscup and a supersedeas was issued staying the Kohlsaat order following application for a writ of error by the respondents. In giving the opinion, Judge Grosscup, upholding the right of silence, said:

"The constitution of the United States provides that no one shall be compelled to be a witness against himself. The right of silence thus given was among the most cherished guarantees of our fundamental law. It is one of the distinctive guarantees of Anglo-Saxon civil liberty. It takes equal rank with those constitutional prohibitions in favor of the individual as against the state that forbid the impairment of contract or the taking of property without due process of law. A constitutional guaranty cannot be forfeited. In the promotion of law and order it must not be overlooked for the promotion of law and order must not itself be lawless."

### GAME PRESERVE.

President Roosevelt Has Issued Proclamation to This Effect.

Washington, June 6.—Putting into effect a law passed at the last session of congress, the president has proclaimed the entire Wichita forest reserve a game preserve. The reserve is in Oklahoma, and contains 57,120 acres. Declaring it a game preserve has the effect of suspending all territorial game laws. Game, especially quail and wild turkeys, will be protected and encouraged to propagate in the preserve.

### Stabbed Six Times.

Enid, Okla., June 6.—Lewis Finney and E. D. Hendricks, negroes, became involved in a quarrel and the former was cut and stabbed six times with a large pocket knife. One wound penetrated the lung four inches and another narrowly missed the femoral vein. His condition is very serious. Hendricks is under arrest.

### Still In Control.

Muskogee, June 6.—The business men and city officials are still in control of the situation in the tribal tax matter. One of the stores which was closed has brought suit for \$50,000 against Indian Inspector Wright. The business houses remain open, and the mayor is holding his decision in the cases of Indian police under arrest.

### TALKED OF TRIP.

Chief Executive Will Wind Up Southern Tour at Little Rock.

Washington, June 6.—Former Ambassador Powell Clayton and Colonel H. L. Rammel of Little Rock had a talk Monday with the president about his visit to Little Rock next November. The president will go to Little Rock from New Orleans, and his southern trip will end at that point. He expects to be in Little Rock from 9 a. m. until 4 p. m. In that time he will visit Fort Logan H. Root, and will take a drive about the city, address the citizens in a public park and take luncheon with the members of the Board of Trade.

Cheatham Declares Statistics Were Not Correct.

TO TELL PRESIDENT.

Understood That He Charges Agricultural Department Attache With Manipulating Cotton Figures For Bears.

New York, June 6.—Richard Cheatham of Atlanta, secretary of the Southern Cotton Growers' association, who is in this city, has declared his intention of calling President Roosevelt's attention to what he considers gross irregularities in both the preparation and the publication of the government cotton report issued last Friday. Mr. Cheatham will make no charges of bribery or any other crime, but his intention is to ask for a rigid investigation and that the resignation of one of the important employees in the statistical bureau of the department of agriculture be demanded. It is understood that he charges some one in the department with having manipulated the figures and given them in advance of publication to certain brokers for use in depressing the cotton market.

The Southern Cotton Growers' association is an organization of planters and southern brokers whose object it is to regulate so far as possible the acreage of cotton and to protect the planters and other southern cotton interests from manipulation of the market tending to depress the price of the staple. Officers of the association declare they have as many experts as the department of agriculture and make every effort to secure the most trustworthy information regarding the condition of the crop. For several months the statistics gathered by the association have been at variance with those emanating from Washington, and the officers of the association, together with brokers and cotton merchants in this city, have conducted a secret investigation in the hope of ascertaining the reasons for the discrepancy.

A prominent broker, it is now asserted, has gathered the most important documentary evidence in the case. From employees of the department of agriculture, he says some of whom are in the habit of making frequent visits to this city, he learned that advance information in regard to the reports could be secured. He followed up this line by inquiring whether or not the report could not be changed, and alleges he was successful in this endeavor also, receiving letters from at least one of the prominent firms of cotton brokers in this city had such an understanding with at least one official.

Mr. Cheatham was notified of the alleged discoveries by telegraph and made a hurried trip to this city. After many hours spent in consultation he journeyed to Washington, remained a few hours and returned to New York, saying he desired signatures to a document in his possession. It is said Mr. Cheatham will charge that the figures of the bureau of statistics have been manipulated in the interests of a certain bearish element in the market here and this charge will include not only the furnishing of advance information pertaining to the government figures, but also falsification of the figures.

In the case of the report issued last Friday he will charge that plans were laid practically a month in advance.

### ALFONSO IN CLOVER.

King of Spain Is the Recipient of a Great Many Courtesies.

London, June 6.—The king of Spain opened a long programme of engagements Tuesday with a reception of diplomatic corps at Buckingham palace. All ambassadors and ministers now in London with staffs, embassies and legations attended including Ambassador Reid and other members of the American embassy. Mr. Reid had quite a long talk with King Alfonso, who referred to some of the ambassador's past services. At the request of the Spanish king, Mr. Reid presented Secretary Carter and other members of the embassy to his majesty. Subsequently King Alfonso, escorted by a detachment of life guards, proceeded to attend celebration of mass at the Roman Catholic cathedral at Westminster. There was some excitement on the way there caused by members of the escort being thrown owing to their horses slipping on the wet asphalt.

### Fine Mare Killed.

Detroit, June 6.—In a collision between a Wabash and a Grand Trunk freight train near Chatham, Ont., Clear Their Ena, a young mare, valued at \$3000, was killed, and Foxy Kane, valued at same amount, was severely injured.

### Was the Caucasus.

New York, June 6.—The steamer which went aground off Jones' Island, near Freeport, L. I., late Monday night and which was at first believed to be a transatlantic steamer, proved to be the United States surveying ship Caucasus. She was still hard and fast on the bar Tuesday, but appeared to be in no great danger.

WEDNESDAY, JUNE 7.

IN THE TEXAS CIRCUIT.

Bryan One of Ten Cities Included—Big Thing for the Fair.

As noted in a Dallas special appearing in The Eagle yesterday morning, Bryan is included in the new Texas racing circuit organized in that city, and which to date includes Denison, Greenville, Dallas, Ennis, Taylor, Bryan, Astin, San Antonio, Houston and Beaumont. Two or three other places are being considered, and the circuit may be extended so as to include about sixty days racing. Racing dates are to be arranged later, this feature having been placed in the hands of a committee representing the various points interested, Dr. W. H. Oliver being the Bryan member of the committee. A number of stake events will be held on the circuit, and it is intended to hang up a total of \$125,000 for the entire circuit, to be divided as follows: Denison, \$6,000; Greenville, \$5,000; Dallas, \$30,000; Ennis, \$4,000; Taylor, \$5,000; Bryan, \$5,000; Austin, \$10,000; San Antonio, \$30,000; Houston, \$20,000; Beaumont, \$10,000. The Texas circuit will be run under the rules of the Texas Thoroughbred Association and will bar no one except for fraud. The racing season opens at Denison Sept. 20, and will doubtless be in Bryan for Central Texas fair dates. As will readily be seen this departure adds immense interest to the Central Texas fair.

### CONSTRUCTION OF ACT.

Assistant Attorney General Rules on "Concentrated Foodstuffs."

Austin, June 6.—In answer to an inquiry from Professor John A. Craft, of the agricultural and mechanical college as to construction of act passed by Twenty-ninth legislature, regulating sale of concentrated foodstuffs in Texas, Assistant Attorney General Pollard handed down an opinion in which he holds that the term "concentrated" foodstuffs means either pure wheat bran, or a mixture of either wheat bran with one or more articles contained therein. Pollard also holds that it is the duty of the manufacturer to leave with authorities at the college a sealed glass jar containing not less than one pound of feeding stuff offered for sale for analysis.

Union Leaders Preparing to Settle Strike in This Manner.

Chicago, June 6.—Union leaders are preparing to settle the teamsters' strike on the installment plan, and the Employers' association has resolved that no plans for settlement except such as compromise every strike bound interest will be entertained. The Teamsters' joint council hoped to end the strike "sectionally," taking department stores first, and appointed a committee of three members of the department store drivers to meet State street merchants. Efforts were made to arrange a conference. Employers stated they would not make a settlement that did not include every man involved. However, the teamsters hope the move will prove the entering wedge leading to large negotiations.

Little Ailments That Should Be Looked After if One Wants to Keep Well.

Anyone who has any of the many symptoms caused by poor digestion should take special care to avoid conditions where disease germs are likely to be present. Extreme thinness is the most common indication of a weak stomach, but any of the following symptoms are also good evidence of stomach troubles.

Uneasiness at stomach  
Acidity  
Water-brash  
Spitting up of food  
Colic  
Sensation of weight or heaviness at pit of stomach  
Sore mouth  
Constipation  
Sediment in urine  
Night sweats  
Headache  
Cold hands and feet  
Pain under shoulder blade  
Pain between shoulders.  
Defects of vision or hearing

These little ailments, which indicate a weak stomach and imperfect digestion, should be looked after by the use of Mi-o-na, if one wants to keep well. A tablet of this remarkable remedy, taken before each meal, will so strengthen the stomach and digestive organs that natural weight will be restored and perfect health and strength regained.

Mi-o-na is so nearly infallible in curing indigestion and the many diseases resulting from a weakened stomach, that a guarantee to refund the money is given with every box, should it not give perfect satisfaction. Ask E. J. Jenkins to show you the Mi-o-na guarantee.

The tabulated vote in The Eagle Library Contest is reprinted today to correct an error in the report as printed yesterday. The Austin Literary Society of the A. and M. College was credited on one ticket with 37,380 votes. Upon looking up the ticket for verification, it was found that the purchase on which the vote was given was only \$373.80, and the party who made out the ticket made the wrong calculation as to how many votes the purchase entitled him to. He should have voted 3,738 votes, and the count has been corrected in accordance therewith. The contest is getting interesting now, with the Allen Academy rapidly coming to the front. The A. C. I. has a fight on its hands, but her friends are fighters, and the contest will be warm until the finish. Austin Literary Society and Villa Maria are also in the fight, and although quite a little in the rear at present, there is no telling how rapidly they may come forward on the home stretch.

Paris, June 6.—Foreign Minister DelCasse has resigned and his resignation has been accepted. Premier Rouvier assumes temporarily the portfolio for foreign affairs. The resignation of M. DelCasse was due to the failure of the French policy in Morocco, the sultan having practically rejected France's plans for reform administration, Morocco proposing the whole subject be submitted to a conference of the powers signatory to the treaty. M. DelCasse resigned April 21, but he was prevailed on to retain his portfolio. The minister previously had been severely criticised for granting alleged permission to French officials in the far east to connive at Russian breaches of neutrality.

## CALLS ON PRESIDENT.

Japanese Minister Was a Visitor at the White House Monday Night.  
Washington, June 6.—Peace in the far east was the subject Monday night of another conference at the white house between President Roosevelt and Minister Takahira, the Japanese ambassador. It was the third conference of the day which the president had on this subject. Mr. Jusserand, the French ambassador and Mr. O'Brien, the British charge d'affaires, having been callers at the white house in the morning.

Accompanied by Count Hirose, a Japanese nobleman, traveling in this country, by Commander Takashita, the Japanese naval attaché, and four Japanese naval officers who are here on their way from Tokyo to England to inspect the work on Japanese warships now under construction in British ship yards, Mr. Takahira called at the white

house shortly after 9 o'clock. Naturally, the president was greatly pleased to meet the Japanese visitors, and gave them a most cordial reception. This, however, did not last long. Soon the visitors took their departure, leaving the president and Mr. Takahira to talk of peace. Thus far the minister has not been able to tell the president, except in the most general and official way, what Japan is likely to demand of Russia, when the latter can be brought to discuss peace. Even the minister himself has no idea what Japan's indemnity may amount to. The president was unable to give Mr. Takahira any intimation of how Russia has viewed the annihilation of her fleet, and until Count Cassini's report of his visit to the white house has been replied to from St. Petersburg no further progress toward peace can be made in that direction. Meanwhile, with the assistance of Mr. Takahira, the president is acquainting himself daily with the views of the Japanese government on the whole subject of peace. It is realized by the Washington government that the mikado has a formidable war party in Japan to cope with, and this is one of the reasons why it is difficult for Tokyo to give Washington definite information about what her terms would be in the light of Admiral Togo's latest victory.

Regarding the general situation, it can be announced that Europe regards the president as the most available medium for the preliminary communications between St. Petersburg and Tokyo, and Count Cassini and Mr. Takahira are both convinced of the president's sincerity and friendliness to both belligerents in his conferences in regard to ending the war.

## PENSION RULING.

Widows Married After March 1, 1866 Are Not Entitled.

Austin, June 6.—Controller Stephens has issued the following notice:  
Austin, June 5.—To County Judges: I beg to call your attention to an excerpt of an opinion rendered, at my request, by the attorney general of the state, which is self-explanatory, as follows:

"The Twenty-ninth legislature did not, so far as I can learn, pass any law to extend the benefits of the act of May 12, 1859, to indigent widows of Confederate soldiers or sailors who were married after March 1, 1866. The constitutional amendment is not self-executing. It merely authorizes the legislature to grant such aid and, therefore, I advise you that your department has no authority under existing law to grant pensions to such widows who were married after March 1, 1866, though prior to March 1, 1880." Respectfully,  
J. W. STEPHENS,  
Controller.

## ROYAL WEDDING.

Crown Prince of Germany and Duchess Cecelia United in Marriage.

Berlin, June 6.—Crown Prince Frederick and Duchess Cecelia were married by Dr. Dryander, court chaplain, in the small chapel of the palace at 5 o'clock Tuesday afternoon according to the ritual of the Lutheran church.

CROWN PRINCE FREDERICK WILLIAM AND PRINCESS CECILIA.

### SAID ASSASSINATED.

Rumored on Berlin Bourse That Russian Emperor Was Slain.

Berlin, June 6.—It was reported on the bourse that the Russian emperor had been assassinated. A private telegram to this effect was said to have been received by Mendelssohn, bankers of the Russian government.

### Most Positive Denial.

Berlin, June 6.—The Mendelssohns deny most positively the receipt of a telegram regarding the assassination of Emperor Nicholas. The report is otherwise not traceable.

### LEGISLATIVE ASSEMBLY.

This Seems to Be an Assured Fact, Having Two Houses.

St. Petersburg, June 6.—Details of the epoch making battle of the Sea of Japan, which are drifting in here through the foreign press, and even the question of peace or war, are almost ignored in contemplation of the more absorbing internal situation created by the sudden elevation of Governor General Trepoff to the office of assistant minister of the interior, making him virtually dictator, with a dark vision of the policy of reaction and repression. The Associated Press is informed on high authority that Trepoff's appointment is only half the story and there is a brighter side to the picture. As intimated in dispatches Monday night, it will come in the shape of an imperial manifesto, and immediately realize the popular demand for parliamentary regime by creating a legislative assembly consisting of two houses. The lower house is to be called the cosudarstvennaya дума or "imperial дума," and the upper house, gosudarstvennaya sovet, or present council of the empire.

While the upper house will enjoy a preponderance of power, the lower house will also have legislative functions and the right to interpellate ministers' plan, also involving responsibility of ministers. Delays in elaboration of machinery of election will be obviated by employment of the law of 1864, under which land owners and property owners in cities and villages, including peasants, will elect representation on property basis. The emperor retains complete control of the legislative assembly, with the right of veto and power to dissolve assemblies and order new elections.

### HAD NEW GUNS.

Every Vessel of Togo's Fleet Said to Be Thus Equipped.

Victoria, B. C., June 6.—Captain McKelchie of the British steamer Ilford, which carried 1000 Korean coolies to Salinas Cruz and came here seeking a cargo, says that when Togo's warships gave battle to the Russian fleet every Japanese vessel had been fitted with new guns to replace those used in the earlier part of the war. Captain McKelchie claims he carried thirty tons of naval guns made by the Armstrongs as well as 1500 tons of cordite and two torpedoboats in section to Kure from England, and he knew over a dozen steamers which carried naval guns and explosives from England to Japan.

Captain McKelchie says the cruiser Varig was raised at once, but and accident occurred and the vessel slid down in the deeper part where she was sunk by the Russians in the battle of Chemulpo. She was raised the second time. The Korietz was found to be not worth raising.

### Two Killed, Several Injured.

Pros carried every precinct in Gregg county, Texas, their majority being 377.
